

The XXIII Russian Youth Conference on Physics of Semiconductors and Nanostructures, Opto- and Nanoelectronics

The XXIII Russian Youth Conference on Physics of Semiconductors and Nanostructures, Opto- and Nanoelectronics will be held on November 22 - 26, 2021 in St. Petersburg (Russia).

Students and postgraduate students from all over Russia are invited to participate in the Conference. There is no organizing fee. Moreover, the authors of the best presentations will be awarded with special prizes.

The scope of the Conference:

- bulk properties of semiconductors;
- structure growth, surface, and interfaces;
- heterostructures, superlattices, quantum wells;
- quantum wires, quantum dots, and other low-dimensional systems;
- impurities and defects;
- optoelectronic and nanoelectronic devices;
- novel materials.

One-page abstract should be sent to the Organizing Committee via e-mail
address: conference@semicond.spbstu.ru

Deadline for the abstract submission: October 11, 2021.

Extended Abstracts

The extended abstracts in English are planned to be published in "Journal of Physics: Conference Series".

The authors interested in such a publication have to prepare an extended abstract (3-6 pages) in English, format it according to the template [here](#) and submit to the Organizing Committee till October 11, 2021.

Reviewing and selection of the extended abstracts to be published will be performed by the Program Committee.

The previous Conference Proceedings (extended abstracts) are available [here](#).
