1 июня открывается запись для подачи заявок на двойной диплом PariTech

I am very pleased to inform you that our portal for the ParisTech International Admission Program is now opened. All information is on our website :

<https://studywithus.paristech.fr/en/home>

We organized webinars to explain the process. They are available on YouTube.

We trust the Politechnic university in disseminating this information among the students and kindly remind that no student may apply without the support of the home university.

We remain available for any question students may have, e-mail address : russia-admission@paristech.fr.
